<b>Split Leather SP front</b>	Composition:	split leather (1.1 - 1.3mm)

**4** PRICE GROUP: Blazer, Fame, LE Leather Front, SD Leather Front, Synergy

<b>Blazer CUZ</b>	Composition: Weight: Abrasion Resistance: Flammability: Other:	100% virgin wool. Non metallic dyestuffs 460 g/m <sup>2</sup> 50 000 Martindale cycles EN 1021-1, EN 1021-2, BS 7176 low hazard, UNI 9175 Classe 1.1M Environmental: EU Ecolabel certified. Renewable and Compostable
<b>Fame F</b>	Composition: Weight: Abrasion Resistance: Flammability: Other:	95% wool, 5% polyamide 435 g/m <sup>2</sup> 200 000 Martindale cycles EN 1021-1, EN 1021-2, BS 5852 source 0, BS 5852 source 1, BS 5852 Crib 5, Calif. Bull. 117E, UNI 9175 Classe 1.1M, NF D 60-013 AM 18, IMO A.652, IMO/MED Certificate Environmental: EU Ecolabel certified
<b>Fine Leather LE Front</b>	Composition:	soft grain leather (0.9-1.1mm), thoroughly dyed
<b>Fine Leather SD Front</b>	Composition:	soft grain leather (0.9-1.1mm), thoroughly dyed
<b>Synergy LDS</b>	Composition: Weight: Abrasion Resistance: Flammability:	95% wool, 5% polyamide 400 g/m <sup>2</sup> 100 000 Martindale cycles EN 1021-1, EN 1021-2, BS 7176 low hazard, UNI 9175 Classe 1.1M, NF D 60-013 AM18, Önorm B 3825, Önorm A 3800-1 Q1

**5** PRICE GROUP: Fine Leather LE, Fine Leather SD, Fine Leather Q

<b>Fine Leather LE</b>	Composition:	soft grain leather (0.9-1.1mm), thoroughly dyed
<b>Fine Leather SD</b>	Composition:	soft grain leather (0.9-1.1mm), thoroughly dyed
<b>Fine Leather Q</b>	Composition:	soft grain leather (1.2 - 1.4mm), thoroughly dyed

How to use the pricelist for operative chairs:

Choose <b>SELECTED PRODUCT</b>		Define <b>UPHOLSTERY GROUP</b>		
MODEL [mm]		Price Group		
		GROUP 0 (M, V, C)	GROUP 1 (BN, YB, EF, SM, KN)	GROUP 2 (CSE, YN, CM, UNY, VL, XR)
	<b>NEO II GTP9 ts06</b> with a Epron Synchron mechanism NEO TS06 GTP9 ES xx SH		253	277

The first (bold) name (eg. **Neo II GTP9 ts06 with an Epron Synchron mechanism**) is the trade name.  
The second name (Neo II TS06 GTP9 ES xx SH) is the invoice generated product code.

How to order:

A product code which reads **Neo II TS06 GTP9 ES SH** identifies the chair as:  
**Neo II** with an Epron Synchron mechanism (**ES**), fixed armrests made of aluminium with plastic pad (**GTP9**), plastic base (**TS06**) and 50mm castors for soft surfaces (**SH**).

To order please follow the table below:

Use a product code of selected chair	Change xx into fabric colour code	Change a castors code
Neo II TS06 GTP9 ES	xx	SH
<b>Neo II TS06 GTP9 ES</b>	<b>BN-4011</b>	<b>SHH</b>

How to use the pricelist for configurable chairs:

Choose <b>BASIC MODEL</b>		Add <b>OPTIONS</b> eg. armrests, castors/glides		Select <b>VERSION/BASE/FRAME</b> eg. chromium version		Define <b>UPHOLSTERY:</b> fabric type and colour code	
Model	Description	equipment/information	Symbol	Description	Versions	Contract   YN	
	ER 10 CPT Office swivel chair with a CP base (TS02). High upholstered armrests (RTS), 50mm castor	(black polypropylene)	<b>GTP8</b>	mechanism on a black upholstered backrest and an (RTS), 50mm castors for soft		BN3005 BN3005 BN3005	
		rests (up&down) with soft pads	<b>R9</b>		TS15 black polyamide pyramidal base		
		castors Ø50 for hard surfaces	<b>SHH</b>		ST12 POL chromium version		

How to order:

A product code which reads **MASTER 10 ACTIV1 R1F ST 01-CR SHH** identifies the chair as:  
**Master** with high backrest (**10**), ACTIV1 mechanism (**ACTIV1**), up&down armrests (**R1F**), steel, chromium plated base (**St 01-CR**) and 50mm castors for hard surfaces (**SHH**). If any option does not apply, do not leave empty space, continue adding other options

To order please follow the table below:

Chair line	Extras/Mechanism	Armrests	Base/Version	Fabric + fabric colour code	Castors/Glides
selected from MODEL/DESCRIPTION table	symbol selected from OPTIONS table	symbol selected from OPTIONS table	symbol selected from VERSIONS table	symbol selected from FABRIC SAMPLER	symbol selected from OPTIONS table
<b>MASTER 10</b>	<b>ACTIV1</b>	<b>R1F</b>	<b>ST 01-CR</b>	<b>YN-097</b>	<b>SHH</b>

How to use the pricelist for managerial chairs:

Choose <b>SELECTED PRODUCT</b>		Define <b>UPHOLSTERY GROUP</b>		
MODEL [mm]		Price Group		
		GROUP 0 (M, V, C)	GROUP 1 (BN, YB, EF, SM, KN)	GROUP 2 (YN, CM, UNY, VL, XR)
	<b>CHESTER HRU R23P2 steel 28 chrome</b> with an Epron Synchron mechanism CHESTER-HRU ST28-POL R23P2-CR-xx ES xx ESH	only in V 671	only in KN 693	only in CM, VL 733

How to order:

A product code which reads **CHESTER-HRU ST28-POL R23P2-CR ES ESH** identifies the chair as:  
Chester with an Epron Synchron mechanism, upholstered headrest (**HRU**), 2D adjustable armrests made of polished aluminium and plastic with upholstered pad (**R23P2-CR**), polished aluminium base (**ST28-POL**) and 65mm castors for soft surfaces (**ESH**).

To order please follow the table below:

Use a product code of selected chair	Change xx into finish colour code for arm pads	Change xx into fabric colour code for upholstery	Change a castors code
CHESTER-HRU ST28-POL R23P2-CR-xx ES xx ESH	R23P2-CR-xx	xx	ESH

## DICTIONARY

### Abbreviations used in technical descriptions:

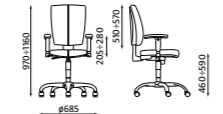

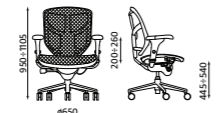

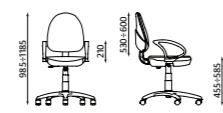

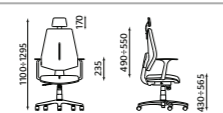

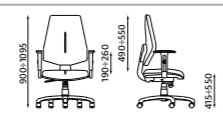

- A-PLUS** – fully upholstered seat and backrest
- B-PLUS** – front part of the chair fully upholstered
- BA** – backrest
- CTH** – coat hanger
- ESH** – castor Ø65 with selfbraking mechanism for soft surfaces
- ESHH** – castor Ø65 with selfbraking mechanism for hard surfaces
- ESH-W** – white castor Ø65 with selfbraking mechanism for soft surfaces
- ESHH-W** – white castor Ø65 with selfbraking mechanism for hard surfaces
- GB** – plastic glides for hard surfaces
- gtp** – fixed armrests
- gts** – chair without armrest
- HR** – plastic headrest
- HRU** – upholstered headrest
- HRUA** – upholstered & adjustable headrest
- HRM** – mesh headrest
- HRMA** – mesh & adjustable headrest
- NF** – arm pads
- LU** – lumbar support
- PC** – polycarbonate
- PF** – armchair armrest
- PLUS** – separately upholstered seat pad and backrest pads
- PP** – polypropylene
- R** – adjustable armrests
- rts** – chair without armrest with the possibility of fixing
- SE** – seat
- SEAT PLUS** – upholstered seat pad
- SH** – castor Ø50 with selfbraking mechanism for soft surfaces
- SHH** – castor Ø50 with selfbraking mechanism for hard surfaces
- SH-W** – white castor Ø50 with selfbraking mechanism for soft surfaces
- SHH-W** – white castor Ø50 with selfbraking mechanism for hard surfaces
- STW** – steel base with wooden overlay
- ST** – steel base
- TS** – plastic base
- TR** – plastic writing table for right-handed
- TR-xx** – wooden writing table for right-handed
- TL** – plastic writing table for left-handed
- TL-xx** – wooden writing table for left-handed

## CASTORS

SHH

ESHH

**Self-braking castors designed for parquets and hard surfaces** – hard, plastic castors covered with a thin rubber, protecting the parquets, panel surfaces, stone surfaces on which the chair moves from scratching. Under the pressure of a chair user castors start moving freely. After a user's raising from a chair, the castors block automatically. The self-braking mechanism is within the castor. Available in two sizes: Ø50 and Ø65.

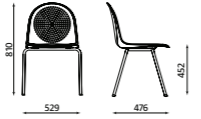

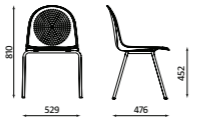

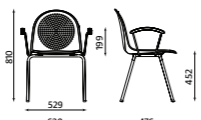

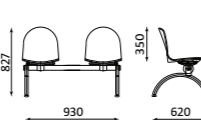

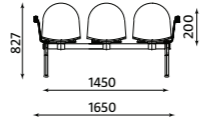

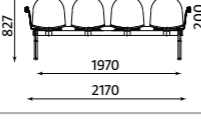

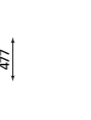

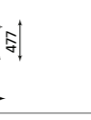

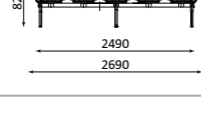

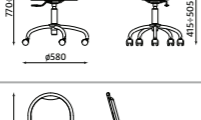

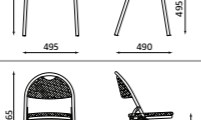

SH

ESH

**Self-braking castors designed for carpeted surfaces** – hard, plastic castors, easily moving on soft surfaces, like carpets and other types of carpeted surfaces. Under the pressure of a chair user castors start moving freely. After a user's raising from a chair, the castors block automatically. The selfbraking mechanism is within the castor. Available in two sizes: Ø50 and Ø65.

# GENERAL BUSINESS CONDITIONS

## 1. Prices

This pricelist is expressed in EURO and takes effect as of 01/04/2017. All previous pricelists now become invalid. Prices are exclusive of delivery and installation/assembly. The costs of installation will be invoiced at fixed prices. Prices do not include value-added tax. Please note that some chairs are sold assembled. In such situations Nowy Styl Sp. z o.o. (further referred to as NSG) does not charge an additional fee for installation/assembly.

## 2. Orders

All orders must be submitted in a written form to avoid errors or duplication. Orders can be placed via EDI after mutual agreement.

Written orders will be accepted in the form of a signed and approved seller's proposal or in the form of a buyer's purchase order. No phone orders will be accepted. Orders for standard or non-standard products cannot be changed or cancelled once the order has been confirmed in writing by NSG.

## Shipping delays:

Shipping date specified in seller's proposal is seller's best estimation of shipping date at the time of proposal. However, the seller shall not be held responsible to the purchaser for failure to ship by a particular date unless the seller has agreed to an explicit shipping date in a separate written document signed by seller's authorized officer.

## Shipping suspension:

In the event if the purchaser defaults in any payment due to the seller, the seller shall have the right, after prior notice to the purchaser, to defer or discontinue shipment of any goods permanently or until such time as the default is corrected or the purchaser provides assurance of payment in such form, content and/or amount as the seller deems adequate.

## 3. Delivery

Deliveries will take place ex-factory unless otherwise expressly agreed. Products are dispatched wrapped in standard packaging. The goods are delivered according to NSG practice unless specific packing, labeling, marking or means of transporta-

tion are requested by the buyer and confirmed by NSG. The confirmed delivery date is an estimated date only. NSG cannot be held responsible for any loss that the buyer may suffer due to a delayed delivery or lack of delivery.

## 4. Payment

Terms of payment shall be agreed with the buyer. Unless otherwise agreed, payment for a consignment must be effected in accordance with the payment terms indicated on commercial invoice and order confirmation. NSG reserves the ownership of all goods sold which are explicitly described on order confirmation, until the purchase amount has been paid in full. The buyer is responsible to NSG for any damage that the goods sold may suffer, until the goods have been paid for. Unless otherwise agreed, payments shall be made in the currency referenced on the invoice.

Transfer of payments shall be made by electronic means directly to NSG bank account. Should any change occur in buyer's financial and economic position, and NSG deems buyer's solvency situation to be changed, NSG may require immediate or earlier payment.

## 5. Complaints and deficiencies

The buyer is obliged to inspect the consignment immediately upon receipt. Complaints and/or visible damages in transport, if any, shall be specified on delivery note/waybill immediately upon receipt of the goods and shall be reported to the carrier immediately.

Complaints concerning damages in transport that are not visible shall be made in writing and received by NSG no later than 7 days from the date of delivery. The buyer has no right to return goods without NSG approval. Returned goods shall only be accepted if a prior written agreement has been made. The goods should be carefully packaged when being returned.

Once the risk of the goods has passed to the buyer, NSG is no longer responsible for any damage that may occur, with the exception of product liability (injury caused by a defective product manufactured by NSG). NSG cannot be held responsible for any indirect losses, e.g. loss of profits or loss due to time

factors, which the buyer may have suffered as a consequence of defects and deficiencies.

For complaints made within the warranty period NSG demands a description of the defect or deficiency to be made in writing by the customer. In order to file a complaint the customer should contact the person at NSG Customer Service Department who is responsible for the region. The customer is further required to supply a photo supporting the description or to return the product. NSG shall consider the complaint within maximum 7 working days. NSG shall not be liable as specified above if damages have been caused by incorrect or abnormal product use or storage under extreme temperatures and climate conditions, or in case of product use inconsistent with NSG instructions.

## 6. Warranty

Warranty period: 3 or 5 years (applicable to Multi-Purpose Chairs Collection catalogue products). Manufacturer declares that the products shall be free from defects in material or workmanship.

The warranty is given to the original purchaser only, for normal commercial usage. Standard use/normal use is defined as the wear which occurs in an office environment during the course of a normal eight-hour work day with weight limitation not exceeding 110 kg. We will replace, to the original purchaser only, any defects in products, parts or components resulting from normal single-shift use. Natural wear and tear of fabrics, products, parts and components is not covered by the warranty.

The warranty does not cover labour, freight/shipping-handling charges, or damages caused by neglect, abuse, misuse, alterations or damage caused by shipment, fire, flood or other natural disasters.

For detailed information on warranty and maintenance please see next page (141).

## I. General terms

1. Name and address of the Warrantor: Nowy Styl sp. z o.o., ul. Pużaka 49, 38-400 Krosno, Poland.
2. The warranty is an agreement between Nowy Styl sp. z o.o. or another subject belonging to Nowy Styl Group and an entrepreneur who has purchased a product from Nowy Styl sp. z o.o. or another subject belonging to Nowy Styl Group when an invoice or a receipt confirming the purchase clearly includes the possibility of granting a warranty.
3. The transfer of any rights or responsibilities of an entrepreneur resulting from this agreement requires prior consent from Nowy Styl sp. z o.o. that shall be null and void unless given in writing.
4. Nowy Styl sp. z o.o. (hereinafter referred to as "Producer", "Warrantor" or "NS") issues entrepreneurs, in accordance with the conditions defined in this document, a quality warranty for the products purchased from Nowy Styl Group. z o.o. or another subject belonging to Nowy Styl Group by the brands included in an invoice or a receipt confirming a particular purchase (hereinafter referred to collectively as "Products" or individually as "Product").
5. The quality warranty is issued in keeping with the law regulations that are binding in the country in which the sale of the Product to an entrepreneur by Nowy Styl sp. z o.o. or another subject belonging to Nowy Styl Group took place.
6. The geographic scope of the warranty protection: the territory of the country in which the sale of the Product to an entrepreneur by Nowy Styl sp. z o.o. or another subject belonging to Nowy Styl Group took place.
7. In the case of Products manufactured for individual orders, an entrepreneur and Nowy Styl sp. z o.o. or another subject belonging to Nowy Styl Group may agree on different warranty conditions within an agreement that shall be null and void unless made in writing – for instance, a different warranty protection period. In this case the conditions included herein may be valid only partially or may not be valid at all, depending on the prior individual arrangements.
8. The agreement shall not exclude, limit or suspend the following:
  - 8.1. Entitlements resulting from the mandatory provisions of law concerning the responsibility of a seller for the defects of the product sold or those provisions of law concerning a different responsibility system applied to an entrepreneur purchasing Products from Nowy Styl sp. z o.o. or another subject belonging to Nowy Styl Group (hereinafter referred to as "Purchaser"). A Purchaser may exercise the rights attached to a statutory warranty
  - 8.2. for physical defects of products regardless of the rights resulting from the warranty.
  - 8.3. Consumer entitlements defined by the mandatory provisions of law.

## II. The scope of the warranty

1. The responsibility of the Producer resulting from the warranty applies exclusively to those defects that have appeared due to causes inherent in the Product (in particular: material, constructional or manufacturing defects being the fault of the Producer).
2. The warranty covers only those Products that are operated according to the proper use, maintenance and cleaning principles that are published by Nowy Styl sp. z o.o. or another subject belonging to Nowy Styl Group and available on the websites of the Group's brands, at [www.nowystylgroup.com](http://www.nowystylgroup.com) or in assembly manuals provided by the Producer. Violation of any principle results in the warranty rights being lost.
3. Materials used to manufacture the Product that have been supplied by an entrepreneur are not covered by the warranty.

## III. Warranty protection period

1. Nowy Styl sp. z o. o. guarantees the proper quality of the Product within the stated warranty periods dating from the day the Product is purchased by an entrepreneur from Nowy Styl sp. z o.o. or another subject belonging to Nowy Styl Group as confirmed by a VAT invoice or a receipt.
  2. The warranty periods presented in the following conditions have been determined assuming the Products are operated in standard mode, i.e. used by persons working within a single-shift cycle during a 40-hour week (8 hours a day).
  3. Aside from the exceptions defined in the document, the following warranty periods apply to particular groups of Products by the Nowy Styl Group's brands:
    - 3.1. Nowy Styl Standard – 2 years.
    - 3.2. Nowy Styl Premium – 3 years. (Selected Products: Chester, Neo-Lux, Next\_U, Sonata, Cinque, Gem, Montana, Neo II, Officer Net, Offix, Quatro, Wait)
    - 3.3. Nowy Styl – design offer – 5 years. (Selected Products: Enjoy, Sit.On, Sit.Net, Fano, Step, Vesta New)
    - 3.4. BN Office Solution – 5 years.
  4. Exceptions to the stated warranty periods:
    - 4.1. Products upholstered with fabrics from Price Group 0 in NSG's standard offer of finishes – 2 years.
    - 4.2. Products upholstered with fabrics from Price Group 1 in Nowy Styl Group's standard offer of finishes (not applicable to the Nowy Styl Standard offer) – 3 years.
  5. If the Products are used more intensively, i.e. for more than 8 hours a day, the warranty period shall be reduced in proportion to the increased duration of the Product use:
    - 5.1. 8 hours a day (220 working days per year – standard warranty period: 5 years – 60 months).
    - 5.2. 16 hours a day (220 working days per year – warranty period: 2.5 years – 30 months).

# WARRANTY TERMS

- 5.3. 24 hours a day (220 working days per year – warranty period: 1.6 years – 20 months).
- 5.4. 24 hours a day (365 working days per year – warranty period: 1 year – 12 months).
- 5.5. If the Products covered by the 3-year warranty period are used more intensively than 8 hours a day, the warranty period shall be reduced to 2 years (24 months).
- 5.6. In the case of the Products made by the Nowy Styl Standard brand with operation time up to 8 hours a day, the warranty period is 2 years (24 months).
- 5.7. If the Products covered by the 2-year warranty period are used more intensively than 8 hours a day, i.e. they are not used for their intended purpose, the Purchaser loses their warranty rights.

## IV. The responsibilities of the Warrantor, complaint notification

6. Under this warranty and throughout its entire period of validity, pursuant to a legitimate and correctly filed complaint, Nowy Styl sp. z o.o. agrees to do the following, in the stated order: remove a defect or repair the Product or part thereof and, if the above is impossible, replace the Product (or part thereof) with a new one, free from defects.
7. In the case of the Producer withdrawing the product purchased by the Purchaser and for which the warranty is still valid, from production and when the complaint has been submitted within the appropriate time period and accepted, the Purchaser agrees to have the Product exchanged with a new Product whose parameters are as similar as possible to the original Product if the defect removal, Product repair or exchange of its part is not possible.
8. A complaint note must be submitted immediately after a defect is revealed, by means of a complaint form available at <http://portal.partner.pl> or by email directly to [reklamacje@nowystylgroup.com](mailto:reklamacje@nowystylgroup.com), to which a Product purchase form must be attached. Complaints are filed directly with the Nowy Styl Group Customer Service Department or via the Partner portal in the "Transactions" tab.
9. Nowy Styl sp. z o. o. is obliged to confirm that a complaint note has been received within 7 working days of the date of recording the complaint made via a complaint form.
10. Groundless denial of access to examine the Product at the location where it is used, or the conditions in which it is used, or groundless refusal to submit additional information required by Nowy Styl sp. z o. o. results in the warranty rights being lost.
11. The Warrantor is required to investigate the complaint within 60 working days of the day the Product is delivered by the warrantee. In the case of the complaint being accepted, the Warrantor is obliged to perform their duties within 30 working days of the day the complaint is accepted.
12. The warranty period does not run anew (i.e. it is continued) from the day the Product free from defects or the repaired Product is supplied.

## The warranty does not cover the following:

1. Characteristic marks, discolouration or pores, which may appear on leather-upholstered Products naturally (as a consequence of material ageing) as well as the Product wear resulting from a natural process, such as the change of colour of furniture components caused by prolonged exposure to light.
2. Slight variations of surface colour of Products made of wood or finished in natural veneer
3. Minor displacements of the symmetry of wood ring patterns, or the presence of morphological elements in wood, such as knots.
4. Minor variations in the colours of individual components within one Product, or differences between individual pieces of furniture or individual purchase orders.
5. The change of colour or gloss occurring in Products naturally, caused by the inevitable process of ageing.
6. Inconveniences resulting from natural characteristics of raw materials used for production, such as a peculiar smell, which can become intense when more Products are gathered in a small and confined space.
7. Minor differences in fabric colours, as compared to the colours of cuttings and

samples, as these depend on the delivery of a specific batch of fabrics.

8. Dents, scratches, blisters and other defects of glass tops, invisible from a distance of 1 m when looking at a 60 degree angle. Glass shall be assessed in diffused daylight (intensity 500-700 lux), against a bright uniform background, observed with the naked eye.
9. Damage to Products caused by sharp objects, stationery or chemical substances.
10. Differences between the actual dimensions of Products and those specified in a catalogue, if not exceeding 2%.
11. Folds, glossy areas, worn areas, colour changes and other visible signs of the use of Products. The weight and warmth of the human body and the humidity of the environment in which a piece of furniture is used may cause permanent changes to the look of the leather of which Products are made.
12. Change in the look of leather, leather-like fabrics and light-coloured fabrics caused by contact with other materials, the colour of which is inadequately fixed.
13. Heterogeneities visible on leather that prove the natural origin of that material. This includes, primarily: scars, veins, insect

sting pores, variations of colour shades and the structure of glossy areas.

## The following situations are excluded from the warranty:

1. The slightly crumpled fabric in a Product in which upholstery is not glued to the seat and/or backrest.
2. The Product repair has been attempted by unauthorised persons or the Purchaser has interfered with the construction
3. of the Product or has in any other way altered it without authorisation.
4. Defects and damage subject to the complaint have been the reasons for a price reduction at the time of the Product purchase.
5. The damage has been caused as a result of the use of the Product in inadequate climatic conditions (inadequate microclimate in the room).
6. Defects in the Product have been caused by inappropriate assembly carried out contrary to assembly instructions by persons without written authorisation from the Producer.
7. Violation of principles concerning the Product safe use defined by the Producer, for instance the use of a chair by users weighing over 110 kg.

## How to make your Nowy Styl Group furniture comfortable and damage-free for a long time:

1. products must be used in accordance with the purpose they are intended for. Only correct assembly carried out according to instructions included in the assembly manual of the specific product, and subsequent sensible operation in conformity with user manual and these guidelines can assure long life of the product;
2. We pack our products very carefully, nevertheless the use of sharp tools to open packaging may cause damage to furniture;
3. Dents and irregular folds on upholstered furniture are most often caused by packing and transportation. Please wait calmly – the problem is normally gone after no later than a couple of days from unpacking;
4. Long life of office furniture is achieved when it is used in an office environment. Please try not to use our products at temperatures lower than 15°C and higher than 30°C. Relative air humidity should be kept between 35% and 70%;
5. High temperatures are destructive to furniture. Please do not place or store furniture directly next to heat sources such as radiators. Furniture should be placed at least 1 m away from a heat source;
6. Sunlight has a negative impact on the colour of materials furniture is made of. Prolonged exposure of product to direct sunlight may result in local discolouration;
7. Solvents and other chemicals as well as hot objects may damage furniture coatings. You can avoid tarnishes, discolouration and distortions by working with such objects and substances away from your furniture;
8. Objects with sharp and rough edges may damage furniture. You are advised not to move or place such objects on furniture surface;
9. Please use special caution when placing a heavy object on furniture. It may easily damage the surface. Upholstered furniture is particularly prone to deformation and denting;
10. Do not stand on furniture or sit on armrests and backrests. It may be dangerous to both yourself and the product! It may cause an accident or damage furniture components;
11. Loosened screws are a natural consequence of furniture use. Always act immediately if you notice that a screw has become loose. Please tighten all screws at least once every six months;
12. The most comfortable way of moving a piece of furniture is to hold it by its vertical walls. Do not hold by fittings and handles not intended for carrying as you can easily damage the product;
13. A desk or table should be lifted by its supporting structure, not by the top;
14. Please move fixed furniture by lifting it up – moving it may cause damage to the furniture or floor.
15. Before you start moving cabinets please remove their contents and lock doors and drawers;

15. At least two people are required to move a piece of fixed furniture unless otherwise stated in assembly manual;
16. One person is enough to move a piece of mobile furniture.
17. Please exercise special caution when using furniture covered with natural veneer. It should be protected from contact with hot objects and chemicals, and sharp or heavy objects should not be moved on its surface. You are advised to use pads for mouse, keyboard and other heavy objects. In case of liquid spillage on furniture surface please immediately wipe away the liquid with a soft absorbent cloth;
18. If you would like to move modular seats forming a set please first detach all components of the set. By moving individual components of a system separately you make sure they stay undamaged;
19. A chair is intended to seat only one person (whose weight as prescribed by standards should be no more than 110kg, for no longer than 8 hours a day) except for the chairs where expressly stated otherwise;
20. A sofa should not be used at the same time by more people than is provided for a given model (e.g. a 3-seater sofa must not be used by more than three people at a time);
21. As a standard all swivel chairs come equipped with hard, self-locking castors designed for soft surfaces. Castors for hard surfaces are available optionally;
22. Please use protective floor mats or get appropriate castors to avoid damaging the floor. The Manufacturer does not bear responsibility for damage to flooring caused by the use of products;
23. Repair or replacement of a gas lift can only be carried out by specially trained staff. Do not dismantle, disassemble or heat the gas lift on your own. It may result in damage to the gas lift and oil spillage;
24. Most of visitor chairs are stackable. For your own safety please do not stack chairs higher than as provided for in the instructions for the given model enclosed with this warranty. Curb weight and total weight of a product (including packaging) are indicated on the identification sticker located in an inconspicuous spot on the surface of the furniture. **Please note:** damage caused to a piece of furniture as a result of non-observance of these guidelines provides a basis for rejection of any complaints.

## Veneer-coated, melamine-coated and lacquered surfaces

Materials used in the manufacture of furniture include natural wood – veneer, as well as wood-based materials – melamine coated and raw fine chipboards, lacquered fibreboards and lacquered MDF. These surfaces should be cleaned with a soft, dry or wet fabric, and then wiped dry.

## Wood, plastics and chromium plated elements

Please bear in mind that wood is very prone to moisture. Detergents for cleaning wooden surfaces should therefore be mixed with small amounts of warm water. After cleaning furniture surface please wipe it dry. Wood, aluminum and chromium plated elements should be cleaned with generally available non-scratching detergents intended for the specific type of finish.

## Leather

With proper care, leather products can be preserved in perfect condition for many years. Leather should not be wetted, oiled or treated with abrasives. All dirty stains should be removed immediately. First, leather should be cleaned with a cloth slightly moistened in a mild cleaning solution of water and soap. Next, the surface should be wiped dry delicately. Use of vacuum cleaner is not recommended as it may result in scratched surface of leather. If special care agents for leather are used, it is recommended that the effect of the agent should be tested on a piece of leather before cleaning.

## Fabrics

To avoid fading of fabric, chairs, armchairs and sofas should always be protected from direct sunlight. All stains must be removed immediately. When removing stains and dirt from upholstery fabric please use a moist cloth soaked in warm water and delicate cleaning liquid and shampoo intended for the particular type of stain on furniture upholstery. It is recommended that the effect of the detergent should be tested on a piece of upholstery in an inconspicuous spot before cleaning. Additionally, fabric upholstery requires regular dusting. **Please note:** if improperly cleaned, furniture will wear much faster. Non-observance of these maintenance guidelines may provide a basis for rejection of any complaints.
